

elixirEdu: Admission Module

Developer: Sapnesh Naik sapnesh@kerneldev.com

Overview:

elixirEdu provides a complete all-in-one solution to manage all aspects of a student in an academic institution.

Module Detail:

- **Admission Details:**

Student Admission acts as a bridging module between a Student and a Course.

- This module requires Student Registration and Curriculum Module.
- A Student can be admitted into multiple courses at the same time.
 - Ex: A Student can be part of CBSE Course, Grade 6 and Go-Carting Course, Basic.
- A Student can be admitted into only one of the available grades for the Course, not multiple.
 - Ex: A student cannot be part of the BA1 and BA2 at the same time.
- An Admission will have a status associated with it to identify if the Grade is InProgress / Completed / DroppedOut.
- This status will change based on the actions which will be provided in the future features (Ex. Student Final record etc)

- **Admission Flow:**

- **Creation:** The UI will be a form.
 - The Admin shall select a Student and select one or more Course-Grade for the Student.
- **View:** The UI will be a table
- **Update:** Admin can select any of the admissions and can update the details. Using a Form.
- **Removal:** An Admission can only be removed if it does not have any recorded fee payments.

Permissions:

Admission module will bring in 3 more permissions to the elixirEdu system:

1. Admit Student
2. Remove Student Admission
3. Update Student Admission
